

Health & Safety Policies

- Please ensure your child's **face is clean** before being seated for face painting
- I only use **paints are water based** and can be removed with water or good quality wet wipe. I use safe, cosmetic glitters.
- However, these are safe paints, take extra care not to wash the paint into the eyes. If the paint goes into the eyes, immediately flush eyes with plenty of water. (Please ask for the Safety Data Sheets.)

Although unlikely, I **cannot guarantee a reaction on the skin will not occur**. If you are in doubt ask for a patch test ½ hour in advance or I can paint small design on the hand.

- For everyone's safety please kindly understand, **I cannot paint anyone who:**
 - is, or appears to be sick (running nose, cough, fever, etc.)
 - is suffering from cold sores, conjunctivitis, rashes, infectious skin conditions or open wounds.

If you feel unwell, please do not attend any event or birthday party, stay at home.

Can I please take a photo of your child?

Artists sometimes ask if it is ok to take a photo of your child. Images solely used for promotional/marketing purposes. (Social media, posters, fliers) Generally photos are cropped highlighting the painted design itself.
